Description

The ProLine is the ideal testing machine for functional tests on components and standard tests on materials.

In combination with the intuitive testing software from ZwickRoell, the ProLine materials testing machines are quick and very easy to operate. All test specifications can be used. The ProLine including all mechanical, electronic and software components and the extensive selection of accessories are developed and produced at ZwickRoell's German production site and are ideally coordinated with one another.

Maschine (auf Palette 1,20 x 0,80 x 2,00 m) 860 kg

Elektroschrank (auf Palette 1,20 x 0,80 x 2,00 m) 235 kg
