Description

Voortman roller conveyer with a roller width of 1100mm, a total width of 1640mm and a height of 760mm. The roller diameter is 90mm.

The segments are divided as follows:

13 segments with 3 rollers each, roller spacing 800mm and a length of 1770mm each (3 segments of which have a motor).
3 segments with 2 rollers each, roller distance 450mm and a length of 630mm each (all 3 segments with motor)

All in all, the individual segments result in a total length of approx. 24m and an installation area (1m space between the individual segments) of approx. 39m.
